Ramen Egg (day1) 味付け玉子

Ramen Eggs *(Ajitsuke Tamago)* are delicious as a topping for ramen or enjoyed as a snack. Read on to learn how to make this flavorful Japanese soft-boiled eggs recipe at home. Servings: 4 Eggs

Ingredients

4 large eggs, shell on
1 Tbsp vinegar
1 tsp salt

For the Marinade

3 Tbsp soy sauce
3 Tbsp mirin
3 Tbsp sake (or water)
1 tsp sugar

1. Soft-Boiled Eggs: 1. Add 4 cups (1L) water, vinegar and salt in a medium saucepan and bring it to a boil. Fully cover the eggs in water, at least 1 inch above. Once water is boiling fully, **carefully and gently lower one egg at a time** into the boiling water with a slotted spoon or a ladle.

2.When you add the first egg, set a **7-minute timer**. 6 to 6 ½ minutes for *runny egg yolk* and 8 to 9 minutes for *custard-like egg yolk but not runny*.

3. Lower the heat to maintain a gentle boil. Make sure the water is **simmering,** but not so strong that the eggs bounce around. If you want your egg yolk to be in the centered, **gently** rotate the eggs with chopsticks once in a while for the first 3 minutes so the yolk will be in the center.of the whites.

4. After 7 minutes, immediately take out the eggs and shock them in an ice bath for 15 minutes. Peel eggs once they are cooled.

5. Meanwhile: **Make Marinade:** Gather all the ingredients. In a small saucepan, combine all the marinade. Bring marinade to a boil and whisk it a few times to let the sugar dissolved completely. Once boiling, lower the heat to simmer for 1 minute and turn off the heat. Set aside to cool completely.

6. Place the eggs in a plastic bag and add the marinade into the bag, keep eggs submerged and refrigerated until ready to use, tie with a rubber band, keep the eggs in the refrigerator 8-24 hours. The ramen eggs will get saltier so **take them out from the marinade after 12-24 hours** (depending on your preference). Enjoy the ramen eggs within 3-4 days if your eggs are soft-boiled. **Enjoy the eggs as a snack, in bento, or as a ramen topping. Shoyu Ramen Soup (day 1)

Half the class will be making the Dashi Stock, the other half of class will be making Shoyu Broth, groups will combine their stock and broth to make Shoyu Soup!

DASHI STOCK:

1000 ml water

6-8 dried shitake mushrooms

50 ml bonito flakes

2 pieces kombu (dried kelp)

15 ml dried anchovies, optional

*Dashi is a stock made with combining dried shitake mushrooms, kelp, bonito flakes and/anchovies, boiling for 15- 20 minutes.

DASHI STOCK DIRECTIONS:

1. Gather all the ingredients. DO NOT wash or wipe off the white powdery substance from kombu (Mannitol), which contributes to the umami flavor in dashi.
2. Make 2-3 slits in the kombu, which will help release more flavor. Rinse anchovies if using. Add bonito flakes, kombu, anchovies and shitake mushrooms to 400 ml water in a medium pot.
3. Turn on the heat to medium-low and slowly bring ingredients to a simmer. Simmer for about 15 minutes. Remove solids form broth. Strain and discard anchovies and bonito flakes.
4. Slice kombu into slivers, and thinly slice mushrooms, set aside for garnish.

SHOYU BROTH:

20 ml Sesame oil

3 cloves garlic, minced

5 cm piece ginger, minced

5 ml spicy chili bean sauce

1000 ml Chicken stock/broth

20 ml soy sauce

5 ml sake (rice spirits)

2.5 ml salt

SHOYU BROTH DIRECTIONS:

1. Gather all ingredients for Shoyu broth.
   Mince garlic and ginger finely.
2. Heat sesame oil in a medium pot. Sauté garlic and ginger until fragrant in a medium pot .
3. Add spicy bean paste, stir together. add chicken stock and dashi stock. Simmer for a 2-3 minutes.
4. Place Shoyu Broth in a container, cover, label and refrigerate until ready to use, combine with Dashi stock.

Ramen Noodle Dough (Day 2)

Yield: Serves 4

NOODLE INGREDIENTS:

250 ml Bread Flour
125 ml All-purpose Flour
5 ml lye water
1 egg
7 ml salt
40-50 ml water (approximately- depending on flour and humidity)

1. Mix the dry ingredients together in a medium bowl, make a well in the center, and add beat the eggs and water into the well. Beat with a fork to slowly combine the ingredients together.

KNEAD RAMEN DOUGH:

2. Once the dough ingredients are combined, place dough onto CLEAN counter and start kneading. The ramen/pasta dough should be a little stiffer than bread dough. Knead vigorously. The dough is ready when your hands become clean and the dough is smooth and feels less sticky.

3. If dough is too sticky, add some flour and knead it in. If it doesn't stick at all, add some water a few DROPS at a time. 4. Let dough rest, cover with plastic wrap very well, double wrap, label and rest dough for 15-20 minutes, or overnight in the fridge if necessary.

Clean up dishes, prepare other ingredients during resting time. Dough will be stretched using a pasta machine after gluten in the dough relaxes.

NOTE: Lye water is an alkali solution made of sodium hydroxide. It changes the flavor, and colour of noodles, the texture is more slippery and elastic than regular noodles.

Ramen Noodles (Day 2)

1. Divide the dough into 2 pieces. Re-cover all but 1 piece with plastic wrap. Flatten uncovered dough (with rolling pin or with your hands). Flour the dough lightly on both sides.

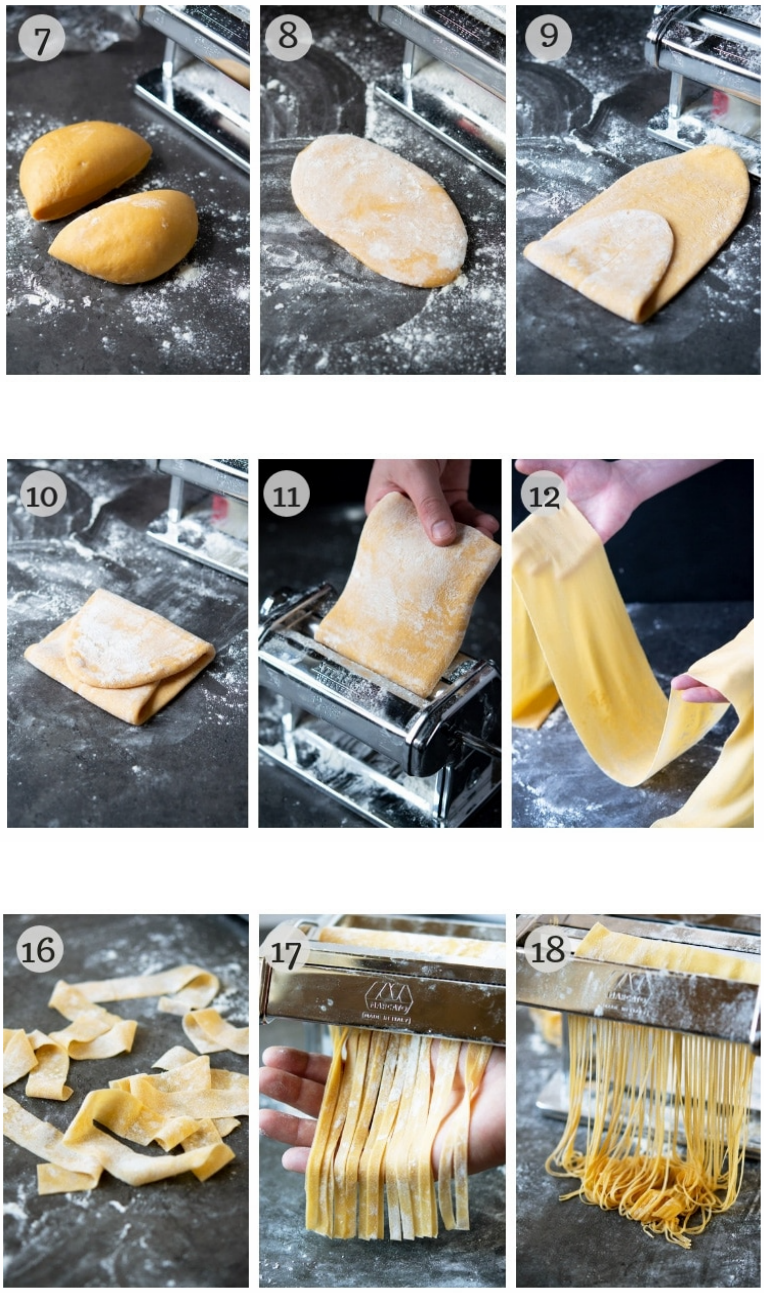

2. Roll the dough through the widest setting of a pasta machine .(#1) Fold the pasta in thirds and roll through the machine again.
3. Repeat this 3-4 times, folding the dough into thirds each time.

4. Continue rolling the dough through the pasta machine, gradually making the opening smaller, until you arrive at approximately 1 mm in thickness (or the second thinnest setting).

5. You can now cut the pasta sheet using the machine setting, cut into long thin noodles.

6. Fill a large pot/saucepan 3/4 full of water. Boil the water with 15 ml of salt.

7. Place pasta in the water and cook until just tender ~ 2 minutes.

Photos: https://www.insidetherustickitchen.com/homemade-pasta-dough/

8. Cook until pasta is *al dente* (Italian for "tender but firm" – you will need to taste and check)

9. Remove from heat and drain pasta in a colander. Using tongs, evenly distribute amongst your unit on individual plates.

Extra Tips For Making Homemade Pasta Dough:

- Use the highest quality free range eggs and "00 flour" if possible.
- Knead the dough for no less than 10 minutes. It should be smooth and elastic in texture. If you're unsure cut the dough in half, if there are tiny air bubbles inside the dough it's ready.
- Make sure to rest the pasta dough for 30 minutes before rolling out.
- Make sure to lightly sprinkle flour on your work surface when rolling out.
- Always sprinkle a little flour on the rollers of your pasta machine to stop it sticking.
- Roll dough only to the second last setting of pasta machine. The last setting makes pasta too thin, and much harder to work with because it is so delicate.

COOK RAMEN NOODLES:

1. In a large pot, fill 2/3 of the pot with water and bring it to a full boil. Turn off heat and set aside until ready to cook ramen noodles. Bring to a rolling boil when ready to cook noodles.

2. When ready to cook, loosen strands of noodles before sprinkling them in the boiling water. Stir occasionally. Cook noodles for about 1 minute and 30 seconds, until "Al dente". Check for doneness by biting into a noodle. A cooked noodle is chewy, not mushy.

3. Drain noodles in a colander and divide into 4 bowls, ready for garnish.

Assemble Ramen Noodles (Day 2)

GARNISHES & TOPPINGS:

2 soft boiled egg
2 pieces nori, cut in ½ (seaweed)
2 slices *Surimi* (fish cakes)
2-3 pieces Shitake mushrooms
2 slices Kombu
2-3pieces *chin gensai* (bak choy)
1-2 stalks green onion

ASSEMBLE & SERVE:

1. Mix Dashi stock and Shoyu broth together. Reheat in a in a medium pot on medium heat, until simmering. Keep warm.
2. Gather ingredients and prepare them on a tray mise en place.
3. Wash vegetables. Cut Bak choy into ½ or ¼ pieces.
4. Thinly slice kombu, julienne. Thinly slice Surimi and slice green onions diagonally.
5. **To Serve Ramen Eggs:** Soak the bag in warm water to bring up To temperature faster. Take out the eggs and cut them in halves to serve. Use a very sharp knife, piece of string, fishing line, or dental floss. Discard marinade.
6. Place hot noodles in the bottom of bowls, Place garnishes including Ramen egg on top of each bowl attractively.
7. Ladle hot soup into each bowl, serve hot.
8. Finish with crispy Nori and egg. Enjoy!
